To dispense a set volume between 0.25 L and 63.75 L

- Press MENU for about 2 seconds. The LCD should change as shown below.

- Use the Keypad Arrow Keys (MEASURE or CLEANING) to set the volume of water you want to dispense from the Milli-Q.

- Hold the OPERATE/STANDBY Keypad Button to “validate” your volume selection. The Milli-Q will now go to PRE OPERATE Mode.

- Move the FOU Dispenser Trigger forward. The Milli-Q will go from PRE OPERATE Mode to PRODUCT Mode. The LCD will show (lower right corner) the amount of water being dispensed.

A counter shows the total volume being dispensed (0.02 litres at this time).
